

Hand-drawn cross-section diagram of a wall and floor assembly. The wall is 200mm thick. The floor assembly consists of a 5.30 thick layer on top of the wall, a 3.00 (REF.) thick layer below the wall, and a 0.70 thick layer on the bottom. A diagonal line indicates a break in the wall. A dimension line shows the total height of the wall assembly is 5.30. A dimension line shows the total width of the floor assembly is 3.00 (REF.). A dimension line shows the total width of the wall assembly is 0.70. A dimension line shows the total width of the wall assembly is 200.
